1. Introduction

1.1 This policy is written in line with the requirements of:

- Children and Families Act 2014 - section 100
- Supporting pupils at school with medical conditions: Statutory guidance for governing bodies of maintained schools and proprietors of academies in England, Department for Education (DfE), December 2015
- 0-25 SEND Code of Practice, DfE January 2015
- Mental Health and behaviour in schools: departmental advice for school staff, DfE November 2018
- Equalities Act 2010
- Schools Admissions Code, DfE September 2021
- ESCC Accessibility Strategy
- ESCC SEND Strategy
SEND MATRIX
<https://czone.eastsussex.gov.uk/inclusion-and-send/sen-matrix/the-matrix/>
- East Sussex policy for the education of children and young people unable to attend school because of health needs (link: <https://www.eastsussex.gov.uk/educationandlearning/schools/attendance-behaviour/too-sick/>)
- ISEND Front Door
<https://czone.eastsussex.gov.uk/inclusion-and-send/front-door-referrals/> and include the following documents: Additional Needs Plan or IHCP, registration certificate and current medical evidence. Potential referrals can be discussed with TLP – 01273 336888

1.2 This policy should be read in conjunction with the following school policies

- SEND Policy
- SEND Information Report
- Child Protection and Safeguarding Policy
- Complaints Procedure
- Educational visits policy

1.3 This policy was developed with The Turing School Governing Body and the senior leadership team, and will be reviewed annually.

1.4 Systems are in place to ensure that the Designated Safeguarding Lead is kept informed of arrangements for children with medical conditions and is alerted where a concern arises, such as an error with the administration of medicines or intervention, or repeated medical appointments being missed, or guidance or treatments not being followed by the parents or the child.

2. Definitions of medical conditions

2.1 Pupils' medical needs may be broadly summarised as being of two types:

Short-term affecting their participation at school because they are on a course of medication.

Long-term potentially limiting access to education and requiring on-going support, medicines or care while at school to help them to manage their condition and keep them well, including monitoring and intervention in emergency circumstances. It is important that parents feel confident that the school will provide effective support for their child's medical condition and that pupils feel safe.

2.2 Some children with medical conditions may be considered disabled under the definition set out in the Equality Act 2010. Where this is the case governing bodies must comply with their duties under that Act. Some may also have special educational needs and/or disability (SEND) and may have a Education, Health and Care (EHC) plan which brings together health and social care needs, as well as their special educational provision. For children with SEND, this policy should be read in conjunction with the Special Educational Needs and Disability (SEND) code of practice (DfE January 2015) which explains the duties of local authorities, health bodies, schools and colleges to provide for those with special educational needs and disabilities. For pupils who have medical conditions and have EHC plans, compliance with the SEND code of practice will ensure compliance with this policy in respect to those children.

3. The role of the governing body

3.1 The governing body remains legally responsible and accountable for fulfilling their statutory duty for supporting pupils at school with medical conditions. The governing body of The Turing School fulfil this by:

- Ensuring that arrangements are in place to support pupils with medical conditions. In doing so we will ensure that such children can access and enjoy the same opportunities at school as any other child;
- Taking into account that many medical conditions that require support at school will affect quality of life and may be life-threatening. Some will be more obvious than others and therefore the focus is on the needs of each individual child and how their medical condition impacts on their school life;
- Ensuring that the arrangements give parents and pupils confidence in the school's ability to provide effective support for medical conditions, should show an understanding of how medical conditions impact on a child's ability to learn, as well as increase their confidence and promote self-care. We will ensure that staff are properly trained to provide the support that pupils need;

- Ensuring that the arrangements put in place are sufficient to meet our statutory duties and ensure that policies, plans, procedures and systems are properly and effectively implemented;
- Developing a policy for supporting pupils with medical conditions that is reviewed regularly and accessible to parents and school staff (this policy);
- Ensuring that the policy includes details on how it will be implemented effectively, including a named person who has overall responsibility for policy implementation (see section below on policy implementation);
- Ensuring that the policy sets out the procedures to be followed whenever the school is notified that a pupil has a medical condition (see section below on procedure to be followed when notification is received that a pupil has a medical condition);
- Ensuring that the policy covers the role of individual healthcare plans, and who is responsible for their development, in supporting pupils at school with medical conditions and that they are reviewed at least annually or earlier if evidence is presented that the pupil's needs have changed (see section below on individual healthcare plans);
- Ensuring that the policy clearly identifies the roles and responsibilities of all those involved in arrangements for supporting pupils at school with medical conditions and how they will be supported, how their training needs will be assessed and how and by whom training will be commissioned and provided (see section below on staff training and support);
- Ensuring that the policy covers arrangements for children who are competent to manage their own health needs and medicines (see section below on the child's role in managing their own medical needs);
- Ensuring that the policy is clear about the procedures to be followed for managing medicines including the completion of written records (see section below on managing medicines on school premises);
- Ensuring that the policy sets out what should happen in an emergency situation (see section below on emergency procedures);
- Ensuring that the arrangements are clear and unambiguous about the need to actively support pupils with medical conditions to participate in school trips and visits, or in sporting activities, and not prevent them from doing so (see section on day trips, residential trips and sporting activities);
- Ensuring that the policy is explicit about what practice is not acceptable (see section on unacceptable practice);
- Ensuring that the correct level of insurance is in place and appropriate to the level of risk (see section on liability and indemnity);
- Ensuring that the policy sets out how complaints may be made and will be handled concerning the support of pupils with medical conditions (see section on complaints).

4. Policy implementation

4.1 The statutory duty for making arrangements for supporting pupils at school with medical conditions rests with the governing body. The governing body has delegated the

implementation of this policy to the staff below, however, the governing body remains legally responsible and accountable for fulfilling our statutory duty.

4.2 The overall responsibility for the implementation of this policy is given to Miss Sarah Doyle, Headteacher. They will also be responsible for ensuring that sufficient staff are suitably trained and will ensure cover arrangements in cases of staff absences or staff turnover to ensure that someone is always available and on-site with an appropriate level of training.

4.3 Miss Chelsey Leighton, Assistant Headteacher will be responsible for briefing supply teachers, preparing risk assessments for off site visits and other school activities outside of the normal timetable and for the monitoring of individual healthcare plans for off-site visits.

4.4 Miss Chelsey Leighton, Assistant Headteacher will be responsible in conjunction with parents/carers, for drawing up, implementing and keeping under review the individual healthcare plan for each pupil and making sure relevant staff are aware of these plans.

4.5 All members of staff are expected to show a commitment and awareness of children's medical conditions and the expectations of this policy. All new members of staff will be inducted into the arrangements and guidelines in this policy upon taking up their post.

5. Procedure to be followed when notification is received that a pupil has a medical condition

5.1 This covers notification prior to admission, procedures to cover transitional arrangements between schools or alternative providers, and the process to be followed upon reintegration after a period of absence or when pupils' needs change. For children being admitted to The Turing School for the first time with good notification given, the arrangements will be in place for the start of the relevant school term. In other cases, such as a new diagnosis or a child moving to The Turing School mid-term, we will make every effort to ensure that arrangements are put in place within two weeks.

5.2 In making the arrangements, we will take into account that many of the medical conditions that require support at school will affect quality of life and may be life-threatening. We also acknowledge that some may be more obvious than others. We will therefore ensure that the focus is on the needs of each individual child and how their medical condition impacts on their school life. We aim to ensure that parents/carers and pupils can have confidence in our ability to provide effective support for medical conditions in school, so the arrangements will show an understanding of how medical conditions impact on the child's ability to learn, as well as increase their confidence and promote self-care.

5.3 We will ensure that staff are properly trained and supervised to support pupils' medical conditions and will be clear and unambiguous about the need to actively support pupils with

medical conditions to participate in offsite visits, or in sporting activities, and not prevent them doing so. We will make arrangements for the inclusion of pupils in such activities with any adjustments as required unless evidence from a clinician such as a GP states that this is not possible. We will make sure that no child with a medical condition is denied admission or prevented from attending the school because arrangements for supporting their medical condition have not been made. However, in line with our safeguarding duties, we will ensure that all pupils' health is not put at unnecessary risk from, for example, infectious disease. We will therefore not accept a child in school at times where it would be detrimental to the health of that child or others.

5.4 The Turing School does not have to wait for a formal diagnosis before providing support to pupils. In cases where a pupil's medical condition is unclear, or where there is a difference of opinion, judgements will be needed about what support to provide based on available evidence. This would normally involve some form of medical evidence and consultation with parents/carers. Where evidence conflicts, some degree of challenge may be necessary to ensure that the right support can be put in place, these discussions will be led by the Assistant Headteacher, Miss Chelsey Leighton, who will then write in conjunction with the parent/carers an individual healthcare plan, which will be implemented at school.

Please also see 'Safeguarding children in whom illness is fabricated or induced' Department for Children's & Families 2008).

6. Individual healthcare plans

6.1 Individual healthcare plans will help to ensure that we effectively support pupils with medical conditions. They will provide clarity about what needs to be done, when and by whom. They will often be essential, such as in cases where conditions fluctuate or where there is a high risk that emergency intervention will be needed. They are likely to be required in the majority of other cases too, especially where medical conditions are long-term and/or complex. However, not all pupils will require one. The school, healthcare professional and parent/carer should agree, based on evidence, when a healthcare plan would be inappropriate or disproportionate. If consensus cannot be reached the Headteacher, Miss Sarah Doyle, is best placed to take a final view. Please see the separate flow chart (Appendix 1) for identifying and agreeing the support a child needs and developing an individual healthcare plan.

Where a child may have been diagnosed with asthma, this may be supported by written asthma plans and regular training and support for staff. Young people with significant asthma should have an individual healthcare plan. Asthma cards from Asthma UK are used to document information for individual pupils when necessary who do not require a healthcare plan.

6.2 Individual healthcare plans will be easily accessible to all who need to refer to them, while preserving confidentiality. Plans will capture the key information and actions that are required to support the pupil effectively. The level of detail within the plan will depend on the complexity of the pupil's condition and the degree of support needed. This is important

because different pupils with the same health condition may require very different support. Where a pupil has Special Educational Needs/Disabilities but does not have an Education Health and Care plan, their special educational needs should be mentioned in their individual healthcare plan and Additional Needs Plan (ANP).

6.3 Individual healthcare plans (and their review) should be drawn up in partnership between the school, parents/carers and a relevant healthcare professional e.g. school, specialist or children's community nurse, who can best advise on the particular needs of the pupil. Please see Appendix 2 invite letter for parents/carers. Pupils should also be involved whenever appropriate. The aim should be to capture the steps which The Turing School should take to help manage their condition and overcome any potential barriers to getting the most from their education. Partners should agree who will take the lead in writing the plan, but responsibility for ensuring it is finalised and implemented rests with the school.

6.4 We will ensure that individual healthcare plans are reviewed at least annually or earlier if evidence is presented that the pupil's needs have changed. They will be developed and reviewed with the pupil's best interests in mind and will ensure that we assess and manage the risks to the pupil's education, health and social wellbeing, and minimise disruption. Where a pupil is returning to school following a period of hospital education or alternative provision, we will work with the local authority and education provider to ensure that the individual healthcare plan identifies the support the pupil will need to reintegrate effectively.

6.5 Where home to school transport is being provided by East Sussex County Council, we will support the development of any risk assessments and share the individual healthcare plan with the local authority and driver/escort. Where pupils have a life threatening condition or a medical need that requires an emergency response, individual healthcare plans should be carried on the vehicle detailing the procedure to be followed in the event of an emergency. In the event that home to school transport is not being provided by East Sussex County Council, the risk assessment and healthcare plan will be shared as appropriate.

6.6 Individual healthcare plans will suit the specific needs of each pupil, but will all include the following information:

- The medical condition, its triggers, signs, symptoms and treatments;
- The pupil's resulting needs, including medication (dose, side effects, storage and expiry) and other treatments, time, facilities, equipment, testing, access to food and drink where this is used to manage their condition, dietary requirements and environmental issues e.g. crowded corridors, travel time between lessons;
- Specific support for the pupil's educational, social and emotional needs - for example, how absences will be managed, requirements for extra time to complete exams, use of rest periods or additional support in catching up with lessons, counselling sessions;

- The level of support needed (some pupils will be able to take responsibility for their own health needs) including in emergencies. If a pupil is self-managing their medication, this should be clearly stated with appropriate arrangements for monitoring;
- Who will provide this support, their training needs, expectations of their role and confirmation of proficiency to provide support for the pupil's medical condition from a healthcare professional; and cover arrangements for when they are unavailable;
- Who in the school needs to be aware of the pupil's condition and the support required;
- Arrangements for written permission from parents/carers and the Headteacher, Miss Sarah Doyle for medication to be administered by a member of staff, or self-administered by the pupil during school hours;
- Separate arrangements or procedures required for offsite visits or other school activities outside of the normal school timetable that will ensure the pupil can participate e.g., risk assessment;
- Where confidentiality issues are raised by the parent/pupil, the designated individual is to be entrusted with information about the pupil's condition; and
- What constitutes an emergency for the individual child, procedures to be followed in an emergency, including whom to contact, and contingency arrangements. Some pupils may have an emergency healthcare plan prepared by their lead clinician that could be used to inform development of their individual healthcare plan.

7. Roles and responsibilities

7.1 Please refer to the section on policy implementation for the functions that have been delegated to different, named members of staff at The Turing School.

7.2 In addition we can refer to the **School Health Team** using the online referral form which can be found at <https://www.kentcht.nhs.uk/service/school-health-service-east-sussex/> for support with drawing up Individual Healthcare Plans, awareness training around common medical conditions, liaison with lead clinicians including identifying specialist training and advice or support in relation to pupils with medical conditions.

7.3 Other **healthcare professionals, including GPs and paediatricians** should notify the School Health Team when a child has been identified as having a medical condition that will require support at school. Specialist local health teams may be able to provide support, and training to staff, for children with particular conditions (e.g. asthma, diabetes, epilepsy, anaphylaxis).

7.4 **Pupils** with medical conditions will often be best placed to provide information about how their condition affects them. They should be fully involved in discussions about their medical support needs and contribute as much as possible to the development of, and comply with, their individual healthcare plan or Additional Needs Plan. Schools should complete a Pupil Voice tool to support the development of these plans.

7.5 **Parents/carers** should provide the school with sufficient and up-to-date information about their child's medical needs. They may, in some cases, be the first to notify the school that their child has a medical condition. Parents/Carers are key partners and should be involved in the development and review of their child's individual healthcare plan, and may be involved in its drafting. They should carry out any action they have agreed to as part of its implementation, e.g. provide medicines and equipment and ensure they or another nominated adult are contactable at all times.

7.6 East Sussex County Council will work with us to support pupils with medical conditions to attend full time. Where pupils would not receive a suitable education in a mainstream school because of their health needs, the local authority has a duty to make other arrangements. ISEND Teaching and Learning Provision is an East Sussex service which supports schools in the education of children and will provide teaching in a range of settings if a young person is unable to attend school for 15 days or more because of health needs (whether consecutive or cumulative across the year).

7.7 **Providers of health services** should cooperate with schools that are supporting children with medical conditions. They can provide valuable support, information, advice and guidance to schools, and their staff, to support children with medical conditions at school.

7.8 The **Ofsted** common inspection framework promotes greater consistency across inspection remits. Inspectors must consider how well a school meets the needs of the full range of pupils, including those with medical conditions. Key judgements will be informed by the progress and achievement of these children alongside those of pupils with special educational needs and disabilities, and also by pupils' spiritual, moral, social and cultural development. Schools are expected to have a policy dealing with medical needs and to be able to demonstrate that it is being implemented effectively.

8. Staff training and support

8.1 Whole school awareness training will be arranged so that staff are aware of the school's policy for supporting pupils with medical conditions and their role in implementing that policy.

The following staff have received training for administration of medicines:

Staff Name	Role	Date Completed
Olivia Ford	Medical Officer	21.09.2021
Graham Taggert	Admin	06.01.2022
Gemma Sorrell-Fleet	Head PA	06.01.2022
Jayne Kettyles	Assistant SENDCo	07.01.2022

Sue Dench	Safeguarding and Wellbeing Officer	11.01.2022
Chelsey Leighton	Assistant Headteacher	14.01.2022
Katie Thorogood	Attendance and Safeguarding Officer	14.10.2022
Sarah Nightingale	Teacher	08.12.2022
Danielle Wyatt	Administration	31.01.2023
Jon Robbins	Teacher	09.11.2023
Katie Newton	Pastoral Support Manager	09.11.2023
Rebecca Parker	Attendance and Safeguarding Officer	24.01.2024
Daisy Pomfrey	Administration	24.01.2024
Jade Turner	Pastoral Support Manager	25.01.2024
Melinda Sargent	Pastoral Support Manager	25.01.2024
Millissa Gallop	Pastoral Support Manager	25.01.2024
Lauran Dees	Pastoral Support Manager	25.01.2024

The following staff have received specific/specialist training:

Epipens CPD		
Graham Taggart	Administration	29.06.23
Katie Thorogood	Attendance and Safeguarding Officer	29.06.23
Jon Robins	Teacher	29.06.23
Olivia Ford	Medical Officer	29.06.23
Zak Harris	Technician	29.06.23
Sarah Glyn-Jones	Technician	09.02.23
Sarah Nightingale	Teacher	29.06.23
Danielle Wyatt	Admin	29.06.23
Ben Kingston	Teacher	29.06.23

Jamie Bunn	Teacher	29.06.23
Claire Holden	Teacher	29.06.23
Andrew Ibbott	Assistant Headteacher	29.06.23
Maggie Dytel	Technician	29.06.23
Kat Freeland-Jones	Teacher	29.06.23
Diabetes		
Graham Taggart	Administration	12.07.21 01.09.22
Diane Pomfrey	Lead practitioner for SEMH	12.07.21 01.09.22
Jayne Kettyles	Assistant SENDCo	12.07.21 01.09.22
Jon Robbins	Teacher	01.09.22
Oliva Ford	Medical Officer	01.09.22
Sarah Nightingale	Teacher	01.09.22
Lizzie Harmer	Exams Officer	01.09.22
Other specific CPD		
Olivia Ford	Medical Officer - Asthma - Anaphylaxis awareness - Epilepsy - Flocare Infinity Enteral Feeding Pump - Medical Safeguarding Training	04.01.22 04.01.22 04.01.22 06.10.22 02.11.23
Three day first aid		
Oliva Ford	Medical Officer	11.02.21 23.02.24
Katie Thorogood	Attendance and Safeguarding Officer	11.05.22
Danielle Wyatt	Administration	25.01.23
Jamie Bunn	Teacher	30.03.22
Claire Holden	Teacher	30.03.22
Emergency first aid one day		
Jon Robbins	Teacher	09.12.21

Ella Garraway	PA to the senior leadership team	09.12.21
Sue Dench	Safeguarding and Wellbeing Officer	25.01.22

8.2 We will record staff training for administration of medicines and /or clinical procedures on The Turing School CPD spreadsheet for 2023-2024.

8.3 All staff who are required to provide support to pupils for medical conditions will be trained by healthcare professionals qualified to do so where required. The training need may be identified by the healthcare professional during the development or review of the individual healthcare plan or we may choose to arrange training ourselves and will ensure that it remains up-to-date.

8.4 Training should be sufficient to ensure that staff are competent and have confidence in their ability to support pupils with medical conditions, and to fulfil the requirements set out in the individual healthcare plans. They will need an understanding of the specific medical conditions they are being asked to deal with, their implications and preventative measures.

8.5 For the protection of both staff and pupils a second member of staff will be present while more intimate procedures are being followed.

8.6 Staff must not give prescription medicines or undertake healthcare procedures without appropriate training (updated to reflect any individual healthcare plans). A first aid certificate does not constitute appropriate training in supporting children with medical conditions. Healthcare professionals, including the school nurse, can provide confirmation of proficiency of staff in a medical procedure, or in providing medication.

8.7 All staff will receive induction training and regular whole school awareness training so that all staff are aware of the school's policy for supporting pupils with medical conditions and their role in implementing the policy. Sarah Doyle, Headteacher will seek advice from relevant healthcare professionals about training needs, including preventative and emergency measures so that staff can recognise and act quickly when a problem occurs.

8.8 The family of a pupil will often be essential in providing relevant information to school staff about how their child's needs can be met, and parents will be asked for their views. They should provide specific advice, but should not be the sole trainer.

9. The child's role in managing their own medical needs

9.1 If, after discussion with the parent/carer, it is agreed that the pupil is competent to manage their own medication and procedures, they will be encouraged to do so. This will be reflected in the individual healthcare plan.

9.2 Wherever possible pupils will be allowed to carry their own medicines and relevant devices or should be able to access their medication for self-medication quickly and easily; these will be stored in the cupboard in the medical room to ensure that the safeguarding of other pupils is not compromised. The Turing School also recognises that pupils who take their medicines themselves and/or manage procedures may require an appropriate level of supervision. If it is not appropriate for a pupil to self-manage, then relevant staff will help to administer medicines and manage procedures for them.

9.3 If a pupil refuses to take medicine or carry out a necessary procedure, staff should not force them to do so, but follow the procedure agreed in the individual healthcare plan and inform the DSL. Parents/Carers will also be informed so that alternative options can be considered.

10. Managing medicines on school premises and record keeping

10.1 At The Turing School the following procedures are to be followed:

- Medicines should only be administered at school when it would be detrimental to a child's health or school attendance not to do so;
- No child under 16 should be given prescription or non-prescription medicines without their parents' written consent using the parental consent form (see Appendix 3) - except in exceptional circumstances where the medicine has been prescribed to the child without the knowledge of the parents. In such cases, every effort should be made to encourage the child or young person to involve their parents while respecting their right to confidentiality.
- With parental written consent we will administer non-prescription medicines with the exception of aspirin or aspirin containing medicines, unless it is prescribed by a doctor. Medication, e.g. for pain relief, should never be administered without first checking maximum dosage and when the previous dose was taken. Parents should be informed.
- Where clinically possible, medicines should be prescribed in dose frequencies which enable them to be taken outside school hours;
- We will only accept prescribed medicines, with written permission from parent/carer that are in-date, labelled, provided in the original container (as dispensed by a pharmacist) and include instructions for administration, dosage and storage. The exception to this is insulin which must be in-date, but will generally be available to schools inside an insulin pen or a pump, rather than its original container;
- All medicines will be stored safely in the medical room. All non-emergency medication will be kept in a locked cupboard used only for that purpose. Some medicines need to be refrigerated. These may only be kept in a refrigerator containing food if they are in an airtight container and clearly labelled. There will be restricted access to a refrigerator holding medicines.

- Pupils will know where their medicines are at all times and be able to access them immediately. Where relevant, they will know who holds the key to the storage facility, Olivia Ford, Medical Officer and Danielle Wyatt, Administration Staff.
- Medicines and devices such as asthma inhalers, blood glucose testing meters and adrenaline auto-injectors should always be readily available in the medical room and not locked away. Pupils requiring such devices are identified and a 'register' of affected pupils is kept up to date. Asthma inhalers should be marked with the child's name.
- A pupil who has been prescribed a controlled drug may legally have it in their possession if they are competent to do so, but passing it to another pupil for use is an offence. Monitoring arrangements may be necessary. Otherwise we will keep all controlled drugs that have been prescribed for a pupil securely stored in a non-portable container and only named staff will have access. The name of the person(s) responsible for the cabinet or administering medication should be stated on the cabinet. Controlled drugs should be easily accessible in an emergency. In cases of emergency the key must be readily available to all members of staff to ensure access. A record should be kept of any doses used and the amount of the controlled drug held in the school;
- Staff administering medicines should do so in accordance with the prescriber's instructions. The Turing School will keep a record of all medicines administered to individual pupils, stating what, how and how much was administered, when and by whom on Medical Tracker. Any side effects of the medication to be administered at school should be noted.
- Only one member of staff **at any one time** should administer medicines (to avoid the risk of double dosing). Arrangements should be made to relieve this member of staff from other duties while preparing or administering doses (to avoid the risk of interruption before the procedure is completed). If more than one person administers medicines a system will be arranged to avoid the risk of double dosing, e.g. a rota, routine consultation of the individual pupil's medicine record before any dose is given, etc.
- When no longer required, medicines should be returned to the parent/carer to arrange safe disposal using the medication in/out log. Sharps boxes should always be used for the disposal of needles and other sharps.
- Pupils with significant asthma have a current health care plan which has been agreed with parents and these pupils carry their inhalers when in school.
- Adrenaline auto-injectors are kept on site for emergency use for identified pupils and these are stored in the medical room. Pupils also carry an auto-injector and these pupils also have a health care plan which has been agreed by parents/carers. Key staff have received specific training for the use of auto-injectors.
- Procedures are in place to ensure that medication expiry dates are checked and that replacement medication is obtained.

11. Medication Errors

11.1 A medication error is when the administration deviates from the instructions of the medical professional and parent. Medication errors typically occur when schools have more

than one pupil with the same name. Some examples of medication errors include administration of:

- a medication to the wrong pupil
- the wrong medication to a pupil
- the wrong dosage of medication to a pupil
- the medication via the wrong route
- the medication at the wrong time.

11.2 Each medication error must be reported to the Headteacher, DSL and the parents. The incident will also be reported via the ESCC online incident reporting system. Procedures are in place to minimise the risk of medication errors.

- Only trained staff will administer medication
- All medication will be recorded
- Individual health care plans will be followed throughout

12. Emergency procedures

12.1 Sarah Doyle, Headteacher will ensure that arrangements are in place for dealing with emergencies for all school activities wherever they take place, including school trips within and outside the UK, as part of the general risk management process

12.2 Where a pupil has an individual healthcare plan, this will clearly define what constitutes an emergency and explain what to do, including ensuring that all relevant staff are aware of emergency symptoms and procedures. Other pupils in the school should know what to do in general terms, such as informing a teacher immediately if they think help is needed.

12.3 If a pupil needs to be taken to hospital, staff will stay with them until the parent arrives, or accompany a child taken to hospital by ambulance. The school is aware of the local emergency services cover arrangements and the correct information will be provided for navigation systems.

13. Offsite visits and sporting activities

13.1 We will actively support pupils with medical conditions to participate in offsite visits and sporting activities by being flexible and making reasonable adjustments unless there is evidence from a clinician such as a GP that this is not possible.

13.2 We will always conduct a risk assessment so that planning arrangements take account of any steps needed to ensure that pupils with medical conditions can be included safely. The individual healthcare plan will be updated with specific information required for the visit/activity and a copy will be taken on the visit. All staff supervising offsite visits will be made aware of any medical needs and relevant emergency procedures. This will involve consultation with

parents\carers and relevant healthcare professions and will be informed by our Educational Visits Policy.

13.3. Staff with the role of administering medicines must have relevant and current training to do so. A first aid qualification does not cover the skills and knowledge required for the administration of medicines.

13.4. Specific procedures on the transporting, storing, etc of medication whilst on an off-site visit is detailed within the school's Educational Visits Policy.

14. Work experience

14.1 The school will assess the suitability of work experience (WEX) placements, with support from the WEX Team. The risk assessment will include the activities being undertaken, travel to and from the placement, supervision during non-teaching time or breaks and lunch hours. This will not conflict with the responsibility of the employer to undertake a risk assessment to identify the significant risks and necessary control measures when pupils below the minimum school leaving age are on site.

15. Hygiene/Infection Control

15.1 All staff will be familiar with normal precautions for avoiding infection and must follow basic hygiene procedures. Staff will have access to protective disposable vinyl gloves and take care when dealing with spillages of blood or other body fluids and disposing of dressings or equipment. Further information is contained in the First Aid Policy and the Guidance for Schools on First Aid.

16. Equipment

16.1 Some pupils will require specialist equipment to support them whilst attending school. Staff will check the equipment, in line with any training given, and report concerns to Chelsey Leighton, Assistant Headteacher.

16.2 The maintenance contract/safety checks for all equipment and the procedure to be followed in the event of equipment failure will be detailed within the individual healthcare plan.

16.3 Staff will be made aware of the use, storage and maintenance of any equipment.

16.4 The Governing Body is considering whether to invest in a defibrillator and associated staff training.

17. Unacceptable practice

17.1 Although staff at The Turing School should use their discretion and judge each case on its merits with reference to the pupil's individual healthcare plan, it is unacceptable practice to:

- Prevent pupils from easily accessing their inhalers and medication and administering their medication when and where necessary;
- Assume that every pupil with the same condition requires the same treatment;
- Ignore the views of the pupil or their parents\carers; or ignore medical evidence or opinion (although this may be challenged);
- Send pupils with medical conditions home frequently or prevent them from staying for normal school activities, including lunch, unless this is specified in their individual healthcare plans;
- Send a pupil who becomes ill to the school office or medical room unaccompanied, or with someone unsuitable;
- Penalise pupils for their attendance record if their absences are related to their medical condition, e.g. hospital appointments;
- Prevent pupils from drinking, eating or taking toilet breaks whenever they need to in order to manage their medical condition effectively;
- Require parents\carers, or otherwise make them feel obliged, to attend school to administer medication or provide medical support to their child, including with toileting issues. No parent should have to give up working because the school is failing to support their child's medical needs; or
- Prevent pupils from participating, or creating unnecessary barriers to pupils participating in any aspect of school life, including school trips, e.g. by requiring parents to accompany the child.

18. Liability and indemnity

18.1 Staff who assist with administering medication to a child in accordance with the procedures detailed within this policy are explicitly reassured that they will be acting within the scope of their employment and that they will be indemnified. Indemnity requires that these procedures are followed as described here. The indemnity though will not be given in cases of fraud, dishonesty, or criminal offence. In the most unlikely event of any civil action for damages being taken against you, Swale Academies Trust will accept responsibility in accordance with the indemnity. Any member of staff will be fully supported throughout the process should an allegation be made. The Turing School is insured by Zurich Municipal. This policy satisfies the requirements of the relevant law applicable in Great Britain, Northern Ireland, the Isle of Man, the Island of Jersey, the Island of Guernsey and the Island of Alderney. The policy has a minimum amount of cover of no less than £5 million.

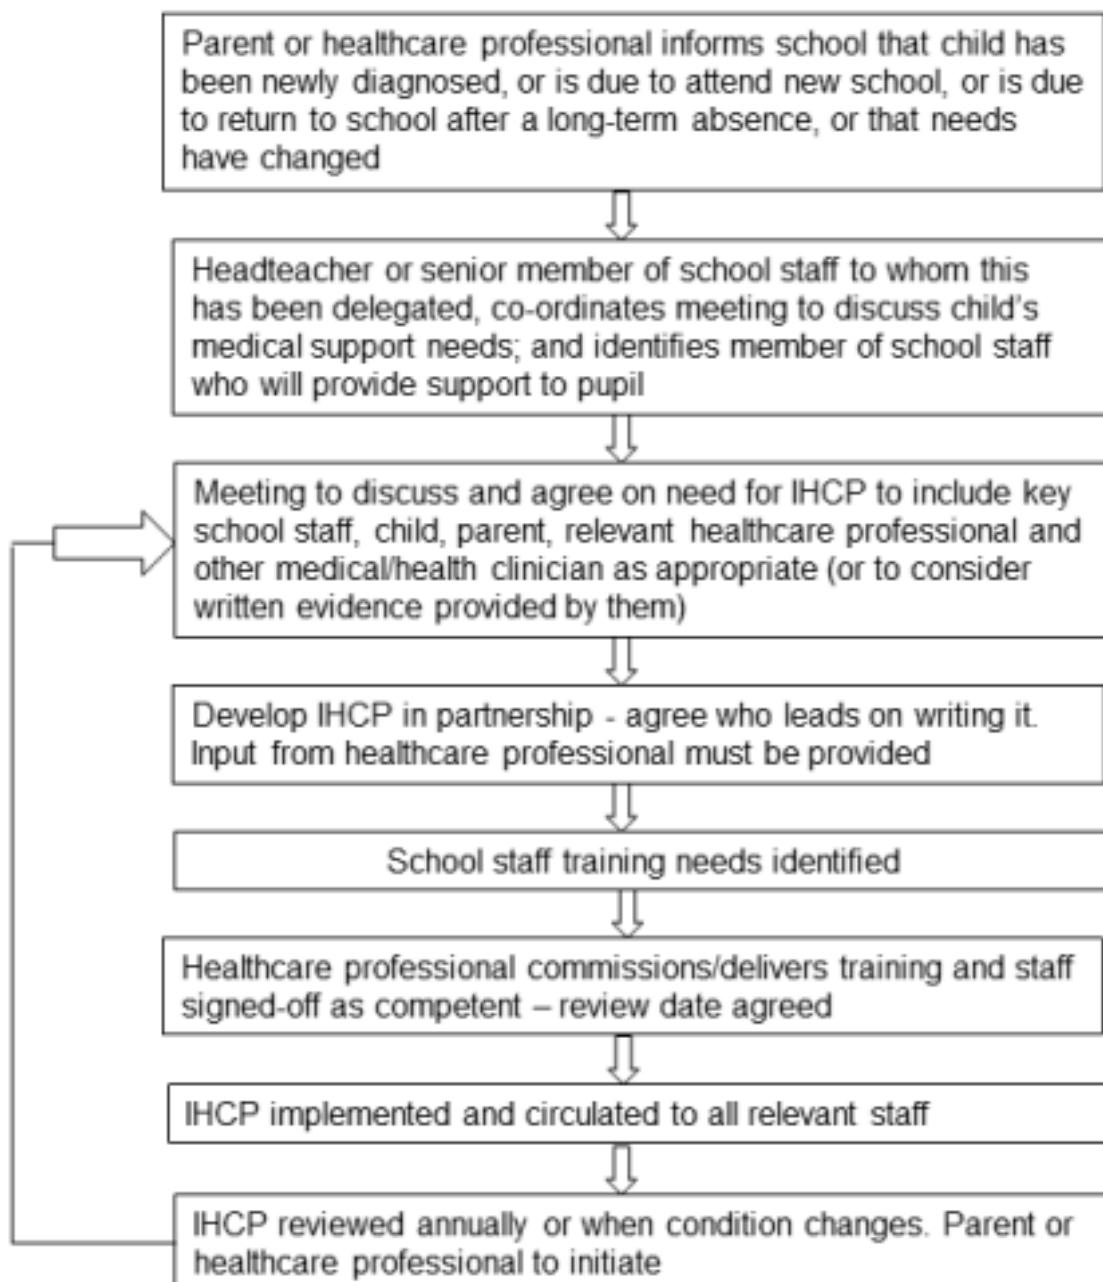

19. Complaints

19.1 Should parents/carers be dissatisfied with the support provided, they must discuss their concerns directly with the school. This will be with the child's class teacher/form tutor in the first instance, with whom any issues should be addressed. If this does not resolve the problem or allay the concern, the problem should be brought to a member of the leadership team, who will, where necessary, bring concerns to the attention of the Headteacher. In the unlikely event

of this not resolving the issue, the parent\carer must make a formal complaint using the The Turing School Complaints Procedure.

Appendix 1

Model process for developing individual healthcare plans

Appendix 2

Model letter inviting parents to contribute to individual healthcare plan development

Dear Parent

DEVELOPING AN INDIVIDUAL HEALTHCARE PLAN FOR YOUR CHILD

Thank you for informing us of your child's medical condition. I enclose a copy of the school's policy for supporting pupils at school with medical conditions for your information.

A central requirement of the policy is for an individual healthcare plan to be prepared, setting out what support the each pupil needs and how this will be provided. Individual healthcare plans are developed in partnership between the school, parents, pupils, and the relevant healthcare professional who can advise on your child's case. The aim is to ensure that we know how to support your child effectively and to provide clarity about what needs to be done, when and by whom. Although individual healthcare plans are likely to be helpful in the majority of cases, it is possible that not all children will require one. We will need to make judgements about how your child's medical condition impacts on their ability to participate fully in school life, and the level of detail within plans will depend on the complexity of their condition and the degree of support needed.

A meeting to start the process of developing your child's individual health care plan has been scheduled for **xx/xx/xx**. I hope that this is convenient for you and would be grateful if you could confirm whether you are able to attend. The meeting will involve **[the following people]**. Please let us know if you would like us to invite another medical practitioner, healthcare professional or specialist and provide any other evidence you would like us to consider at the meeting as soon as possible.

If you are unable to attend, it would be helpful if you could complete the attached individual healthcare plan template and return it, together with any relevant evidence, for consideration at the meeting. I **[or another member of staff involved in plan development or pupil support]** would be happy for you contact me **[them]** by email or to speak by phone if this would be helpful.

Yours sincerely

Appendix 3

Parental Consent Form

To be completed by the parent/guardian of any child/young person to whom drugs may be administered under the supervision of school/setting staff. The school/setting will not give your child medicine unless you complete and sign this form, and the school or setting has a policy that the staff can administer medicine.

If you need help to complete this form, please contact the School/setting or the Health Visitor attached to your doctor's surgery.

Please complete in block letters

Date for review to be initiated by

Name of school/setting

Name of child

Date of birth

Group/class/form

Medical condition or illness

Medicine

Name/type of medicine
(as described on the container)

Expiry date

Dosage and method

Timing

Special precautions/other
instructions

Are there any side effects that the
school/setting needs to know
about?

Self-administration – y/n

Procedures to take in an
emergency

NB: Medicines must be in the original container as dispensed by the pharmacy

Contact Details

Name

Daytime telephone no.

Relationship to child

Address

I understand that I must deliver the medicine personally to

A separate form must be completed for each medicine.

I accept that I must deliver the medicine personally to (agreed member of staff). The above information is, to the best of my knowledge, accurate at the time of writing and I give consent to the school/setting/early year's setting staff administering medicine in accordance with their policy. I will inform the school/setting/setting immediately, in writing, if there is any change in dosage or frequency of the medication or if the medicine is stopped.

I understand that it may be necessary for this treatment to be carried out during educational visits and other out of school/setting activities, as well as on the school/setting premises.

I undertake to supply the school/setting with the drugs and medicines in properly labelled containers.

I accept that whilst my child is in the care of the school/setting, the school/setting staff stand in the position of the parent and that the school/setting staff may therefore need to arrange any medical aid considered necessary in an emergency, but I will be told of any such action as soon as possible.
