

Geography Learning Journey

Year 7 to 11

The Turing School

Term 4 Paper 1, 2 and 3 Revision

YEAR 11

Mocks

- Future of sustainable energy
- Non-renewable energy
- Increasing energy supply
- Distribution of food, water and energy
- Resource management
- Strategies to reduce the development gap
- Causes of uneven development
- Measuring development
- UK/ India in the wider world
- Changing rural landscapes in the UK
- Impacts of TNC's in India
- Changing Economic World: The UK/ India

Assessment

- Impacts of energy insecurity
- Demographic Transition Model
- Development Gap
- Strategies to address regional differences in equality
- How has the UK economy changed over time?
- Fieldwork-Coasts
- Urban Change in the UK
- Managing issues in an NEE
- Rio: NEE
- How are the challenges being managed in Rio?
- Urban Issues and Challenges
- Tectonic hazards contrasting levels of wealth
- Causes of climate change, effects and mitigation
- Challenge of Natural hazards

Mock Paper 1

- How has London changed over time?
- Impacts of migration to London
- Impact of TNC's in NEE's
- Opportunities and Challenges in Rio
- Weather hazards-tropical storms and flooding

Assessment

- Hot Desert
- Characteristics of hot deserts
- Opportunities and challenges of hot deserts
- How do humans alter coastal landscapes?
- How successful is coastal management?
- What processes shape river landscapes?
- Why are tropical rainforests valuable?
- Why are tropical rainforests so diverse?
- Where do we find tropical rainforests?
- Tropical Rainforests
- UK small scale ecosystem + change
- Why does the UK have upland and lowland landscapes?
- Why do geological variations exist in the UK?
- Term 6- Fieldwork and decision making
- Assessment
- Conflict with Ukraine
- Chernobyl nuclear disaster
- Geography of Russia and major biomes
- Importance of Iceland-
- Volcanic activity
- Formation of glaciers and landforms
- Geography of Iceland
- Term 5 Iceland/Russia
- Wildlife
- Pollution in China
- Why was there a one child policy?
- Physical geography
- Formation of the Himalayas
- Sundarbans
- What causes the monsoons?
- Whaling in the Southern Ocean
- Ownership of Antarctica
- Biomes
- Tourism in Kenya
- Assessment
- Blood diamonds in Sierra Leone
- Somali pirates
- Coffee farming
- History
- Drought
- Term 1 Africa
- Physical Geography
- Map skills- grid references, map symbols and height on a map
- Climate of Brazil
- Assessment
- Protecting tropical rainforests
- What are the causes and effects of deforestation in the Amazon?
- Features of the rainforest and plant and animal adaptation
- History of Brazil- Why is Portuguese spoken in Brazil?
- Physical geography of Brazil
- Term 2 Brazil
- Coastal processes and formation of wave cut platforms
- Formation of meanders and oxbow lakes
- UK Geography- location of rivers, mountains

Assessment

- Why are rivers make places vulnerable?
- How successful is river management?
- How do rivers alter river landscapes?
- How do humans alter coastal landscapes?
- What processes shape coastal landscapes?
- River Landscapes
- Coastal Landscapes
- Strategies to reduce desertification
- What are the threats to tropical rainforests?
- Ecosystems in the UK
- Increasing supply of food, water and energy
- Impact of resource Distribution of food, water and energy
- Global atmospheric circulation
- Flooding case study
- Extreme weather
- Assessment
- Managing overpopulation
- World population
- DTM model
- Term 4 Population
- Reducing the gap
- Fairtrade
- World trade
- What causes uneven development
- Term 3 Development Gap
- Debt
- How do we measure development?
- Ageing
- Population population pyramids
- Assessment
- Tsunamis
- Theory of continental drift
- Assessment
- Earthquakes: cause, effects and management
- Volcano case study
- What are super volcanoes?
- Types of volcanoes
- Three plate boundaries
- Refugees
- Gender inequality
- How does plastic pollution affect marine environment?
- What is air pollution
- Assessment
- Desertification
- Climate change
- Earthquakes
- Mumbai-megacity
- Physical geography
- Assessment
- Oil spills
- How is climate change affecting Antarctica
- Tourism in extreme environments
- Adaptation of animals in cold environments
- Early explorers
- Physical geography
- Assessment
- Physical and human geography
- Great Barrier reef
- Term 5 USA
- Tornadoes and hurricanes?
- Grand Canyon and Niagara falls
- Plant adaptation deserts
- Natural hazards- what causes earthquakes in the USA?
- Physical Geography
- Migration to USA
- Term 6 Fieldwork- Where should a wind turbine be placed?
- Physical geography
- Biomes
- Term 2 Antarctica
- Physical geography
- Assessment
- Assessment
- Assessment

Assessment

- Why are tropical rainforests so diverse?
- Where do we find tropical rainforests?
- Tropical Rainforests
- UK small scale ecosystem + change
- Why does the UK have upland and lowland landscapes?
- Why do geological variations exist in the UK?
- Term 6- Fieldwork and decision making
- Assessment
- Conflict with Ukraine
- Chernobyl nuclear disaster
- Geography of Russia and major biomes
- Importance of Iceland-
- Volcanic activity
- Formation of glaciers and landforms
- Geography of Iceland
- Term 5 Iceland/Russia
- Wildlife
- Pollution in China
- Why was there a one child policy?
- Physical geography
- Formation of the Himalayas
- Sundarbans
- What causes the monsoons?
- Whaling in the Southern Ocean
- Ownership of Antarctica
- Biomes
- Tourism in Kenya
- Assessment
- Blood diamonds in Sierra Leone
- Somali pirates
- Coffee farming
- History
- Drought
- Term 1 Africa
- Physical Geography
- Map skills- grid references, map symbols and height on a map
- Climate of Brazil
- Assessment
- Protecting tropical rainforests
- What are the causes and effects of deforestation in the Amazon?
- Features of the rainforest and plant and animal adaptation
- History of Brazil- Why is Portuguese spoken in Brazil?
- Physical geography of Brazil
- Term 2 Brazil
- Coastal processes and formation of wave cut platforms
- Formation of meanders and oxbow lakes
- UK Geography- location of rivers, mountains

Assessment

- How do humans alter coastal landscapes?
- How successful is coastal management?
- What processes shape river landscapes?
- Why are tropical rainforests valuable?
- Why are tropical rainforests so diverse?
- Where do we find tropical rainforests?
- Tropical Rainforests
- UK small scale ecosystem + change
- Why does the UK have upland and lowland landscapes?
- Why do geological variations exist in the UK?
- Term 6- Fieldwork and decision making
- Assessment
- Conflict with Ukraine
- Chernobyl nuclear disaster
- Geography of Russia and major biomes
- Importance of Iceland-
- Volcanic activity
- Formation of glaciers and landforms
- Geography of Iceland
- Term 5 Iceland/Russia
- Wildlife
- Pollution in China
- Why was there a one child policy?
- Physical geography
- Formation of the Himalayas
- Sundarbans
- What causes the monsoons?
- Whaling in the Southern Ocean
- Ownership of Antarctica
- Biomes
- Tourism in Kenya
- Assessment
- Blood diamonds in Sierra Leone
- Somali pirates
- Coffee farming
- History
- Drought
- Term 1 Africa
- Physical Geography
- Map skills- grid references, map symbols and height on a map
- Climate of Brazil
- Assessment
- Protecting tropical rainforests
- What are the causes and effects of deforestation in the Amazon?
- Features of the rainforest and plant and animal adaptation
- History of Brazil- Why is Portuguese spoken in Brazil?
- Physical geography of Brazil
- Term 2 Brazil
- Coastal processes and formation of wave cut platforms
- Formation of meanders and oxbow lakes
- UK Geography- location of rivers, mountains

Assessment

- How do humans alter coastal landscapes?
- How successful is coastal management?
- What processes shape river landscapes?
- Why are tropical rainforests valuable?
- Why are tropical rainforests so diverse?
- Where do we find tropical rainforests?
- Tropical Rainforests
- UK small scale ecosystem + change
- Why does the UK have upland and lowland landscapes?
- Why do geological variations exist in the UK?
- Term 6- Fieldwork and decision making
- Assessment
- Conflict with Ukraine
- Chernobyl nuclear disaster
- Geography of Russia and major biomes
- Importance of Iceland-
- Volcanic activity
- Formation of glaciers and landforms
- Geography of Iceland
- Term 5 Iceland/Russia
- Wildlife
- Pollution in China
- Why was there a one child policy?
- Physical geography
- Formation of the Himalayas
- Sundarbans
- What causes the monsoons?
- Whaling in the Southern Ocean
- Ownership of Antarctica
- Biomes
- Tourism in Kenya
- Assessment
- Blood diamonds in Sierra Leone
- Somali pirates
- Coffee farming
- History
- Drought
- Term 1 Africa
- Physical Geography
- Map skills- grid references, map symbols and height on a map
- Climate of Brazil
- Assessment
- Protecting tropical rainforests
- What are the causes and effects of deforestation in the Amazon?
- Features of the rainforest and plant and animal adaptation
- History of Brazil- Why is Portuguese spoken in Brazil?
- Physical geography of Brazil
- Term 2 Brazil
- Coastal processes and formation of wave cut platforms
- Formation of meanders and oxbow lakes
- UK Geography- location of rivers, mountains

Assessment

- How do humans alter coastal landscapes?
- How successful is coastal management?
- What processes shape river landscapes?
- Why are tropical rainforests valuable?
- Why are tropical rainforests so diverse?
- Where do we find tropical rainforests?
- Tropical Rainforests
- UK small scale ecosystem + change
- Why does the UK have upland and lowland landscapes?
- Why do geological variations exist in the UK?
- Term 6- Fieldwork and decision making
- Assessment
- Conflict with Ukraine
- Chernobyl nuclear disaster
- Geography of Russia and major biomes
- Importance of Iceland-
- Volcanic activity
- Formation of glaciers and landforms
- Geography of Iceland
- Term 5 Iceland/Russia
- Wildlife
- Pollution in China
- Why was there a one child policy?
- Physical geography
- Formation of the Himalayas
- Sundarbans
- What causes the monsoons?
- Whaling in the Southern Ocean
- Ownership of Antarctica
- Biomes
- Tourism in Kenya
- Assessment
- Blood diamonds in Sierra Leone
- Somali pirates
- Coffee farming
- History
- Drought
- Term 1 Africa
- Physical Geography
- Map skills- grid references, map symbols and height on a map
- Climate of Brazil
- Assessment
- Protecting tropical rainforests
- What are the causes and effects of deforestation in the Amazon?
- Features of the rainforest and plant and animal adaptation
- History of Brazil- Why is Portuguese spoken in Brazil?
- Physical geography of Brazil
- Term 2 Brazil
- Coastal processes and formation of wave cut platforms
- Formation of meanders and oxbow lakes
- UK Geography- location of rivers, mountains
